Subteams:

Lesson Plans Outline

Consists of tutorials, workshops, instructions

Per subteam:

- List of hardware
- List of software
- List of specific concepts/strategies

For each mentioned hardware and software:

- Instructions on how to use/download
- Suggested readings (ordered from beginner to intermediate to advanced), coupled with:
- Suggested tutorials (ordered from beginner to intermediate to advanced, make tutorials if not available)
- Detailed walkthrough on integration/implementation in the car (production env.)

For each mentioned concept:

- Provide fundamental conceptual understanding
- Training - a basic overview of the strategies and ideas behind the system through hands-on labs
- Provide further reading/links for those interested
 - Remember your audience, this is for beginners!
